

## Introducing Fuzion...

### Video conferencing for today's businesses.

Getting people to **connect** wherever they are in the world.

Because there's no better time to **pull together**.

### Fuzion provides one integrated user experience

#### Meetings

Simplified video conferencing across any device means exceptional usability. Enhanced security settings ensure continuous meeting time, encryption, role based security and password protection.

#### Video Webinar

Our reliable and scalable webinar function allows you to host online events for up to 100 people. Includes simple and intuitive host controls for presenters and interactive capabilities for attendees.

#### Conference Rooms

The tailored conference room feature lets you host or join meetings with ease. Ideal for integrating with existing hardware and bringing to the FuzionCloud.

#### Phone System

Seamlessly make and receive phone calls, share content, participate in video meetings and send chat messages without requiring participants to hang up and dial-in.

“Coming together is a beginning, staying together is progress, and working together is success.”  
– Henry Ford

Companies  
have never been  
more **productive.**
